

# NATIONAL MARINA DAYS 2022

National Marina Days is a national industry event committed to introduce marinas, boating, and environmental awareness to our communities. Previous events **Hall of Fame Marina** have hosted benefitted many organizations including Sea & Boy Scouts, Veterans, JROTC Students from Marjory Stoneman Douglas High School, Marine Magnet Students at New River Middle School, and industry professionals in need.

The morning kicked off with a heartfelt welcome for our veterans and pledge of allegiance by the JROTC Color Guard from Marjory Stoneman Douglas High School. Veterans and guests enjoyed a buffet breakfast at Bubba Gump Restaurant. We then boarded the “Spirit of Lauderdale” Tropical Sailing Catamaran for an intracoastal and ocean cruise enjoying a picture-perfect morning through Fort Lauderdale’s waterways. During the cruise Vet Info founder William “Bill” Watts provided information on how their organization helps veterans through Advocacy, Education, and Information.
